

Study in Slovakia - Information

Slovakia is located in central Europe and every year more and more students choose it for their studies. In addition to having internationally recognized universities, it offers a fairly economical and safe life and combines enchanting natural beauties. In Slovakia there are recognized schools of Medicine, Dentistry, Veterinary Medicine, Physiotherapy and Pharmacy. There is also the Polytechnic and the School of Architecture for studies in Engineering, Civil Engineering, Environmental Engineering, Architect, Informatics, Economics and Finance.

The courses are taught in English. The basic degree in Medicine, Dentistry and Pharmacy lasts 6 years. Admission is by multiple choice exams. Interested candidates can prepare and attend the exams, which take place in mid-July to mid-August, from Cyprus. For English-speaking universities the tuition amounts to 9500 to 11000 euro while the cost of living is much lower than other European countries and amounts to around 600 to 1000 euro (rent, living expenses).

Students can stay on campus or rent an apartment. The student's daily life revolves around the university, but there is no shortage of time during the day for sports and entertainment, as in Slovak universities you will find sports facilities and groups of artistic activities.
